Synopsis of Legislative Proceedings.

After the reading of the minutes, a petition was presented to change the law authorizing the granting of licenses to sell liquor, which was referred to the Committee on Temperance.

A petition was presented for the repeal of an act for the relief of the families of soldiers, sailors, marines, etc., approved March 4, 1861, and asking for the passage of a law providing that all money collected by the Government in the hands of County Treasurers, to be and remain a portion of the General County Fund, and to be disposed of on any other revenue.

The Select Committee on Stationery made a report in favor of allowing each member \$50 worth of stationery, which report was concurred in.

A resolution was offered calling upon the President to issue a special order, by which the proper civil tribunal, for his alleged treason, and that it convicted he be made to suffer the penalty prescribed by law.

The introduction of this resolution caused a lengthy debate, in which various members took part, so as to show themselves "right on the matter."

In the House yesterday, various petitions were presented on the subject of Temperance and for the repeal of the Act for the Relief of Soldiers' Families.

Fifteen thousand copies of the Governor's Message were ordered to be printed.

The Dockkeeper was instructed to contract

ARRIVAL OF THE STEAMER PERSIA.

New York, November 15.—The steamer Persia has arrived with three days' later news from Europe.

Politics unexciting. The *Pall Mall Gazette* suggests ministerial arrangements are deferred in consequence of there being no speaker to issue writs while the interregnum would be prolonged to sitting members should the contest take place in January.

The *Daily News* says: The speech at Glasgow leaves no doubt of the general course the Ministry will pursue; it is supported by the country; they will not be slow to complete the work of reform. Gladstone is generally regarded as the chief of the Liberal party, and in view of this the Liberal party designated him leader of the Commons. What doubt can remain as to the true wishes of the party which selects such a man for its acknowledged leader?

The *World* thinks no understanding is arrived at concerning reform.

The London correspondent of the *Manchester Guardian* says: Notwithstanding the tone of Seward's speech at Auburn, it is generally understood that the President's attitude has no intention of pressing to a quarrel the controversy regarding the Alabama claim. The same authority adds that it will be very difficult to find a man to succeed him.

A special committee has been issued to try the Fenians at Dublin, with power to adjourn to Cork.

The proprietor of the *People* has commenced action against the police for the seizure of the reported lost large Bremen steamer, for New York, in the British channel, is believed to be unimpaired.

No confirmation has been received in England of the report that the steamer Persia has been detained at Quarantine.

The *Monitor* says the rumors relative to the instruction in Algeria are much exaggerated.

The Frankfurt Senate had rejected its refusal to accede to the terms of Austria and Prussia in the Franco-German war.

Reverend Mr. Thompson, the British envoy, had an interview with the Emperor, and departed for England to resume diplomatic relations.

LIVERPOOL, November 15.—The action against the Royal Bank of Ireland had been settled. It appeared that the directors of the bank, who had a sum in its credit in the bank, which the Government alleged was the proceeds of the sale of the bank's property, had been ordered to pay the same to the Government, and the bank had refused to pay any further check.

Mr. Leary commenced action. On application to Leary to draw a part of the sum for his defense, it was at once agreed to, and paid accordingly. After the commencement of the action, Mr. Leary's attorney, mentioned that the balance was also required for the defense of the prisoner, and it would be so applied. It was at once paid.

The action brought against the magistrate, and the police, by the *Irish Free Press* newspaper, the defense is that nothing was seized in excess of the *People* except what was necessary to the purposes of the prosecution.

The London *Morning Post* says that Mr. Gladstone's speech yesterday had the effect of the referendum whenever a practicable one shall be produced, and when public opinion is in favor of the measure, it should be passed, but not one word seems to indicate that any such bill will be brought forward.

The *Times* says that the discussion demanded at the late meeting of the House was comparatively light. In stock exchange advances had been offered at six per cent.

From Savannah—A Freedman Shot.

SAVANNAH, Nov. 15.—The Savannah Herald of the 14th inst. states that a freedman, in the latter part of October attempted to shoot Rev. G. H. Eaton, Superintendent of Freedmen in St. Helena's Island, and was instantly killed by several freedmen.

Hope M. Johnson and a brother of Whaley were taken to the hospital, and the latter was being carried to the water's edge at Chester when the steamer was sunk.

Burning of a Steamboat.

CHESTER, Pa., Nov. 15.—The steamer *Greyhound* was burned to the water's edge at Chester yesterday evening.
